Safety data sheet

according to Regulation (EC) No 1907/2006, Article 31

Printing date 10.04.2024 Version number 12 (replaces version 11) Revision: 10.04.2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

· 1.1 Product identifier

· Trade name: **Hardener for 2K Epoxy Primer**

· Article number: 88112, 88132

40V7-M0D8-S00S-SUKG · UFI:

 1.2 Relevant identified uses of the substance or mixture and

No further relevant information available. uses advised against

· Application of the substance / the mixture

Priming

Hardening agent/ Curing agent

· 1.3 Details of the supplier of the safety data sheet

· Manufacturer/Supplier: AKEMI chemisch technische Spezialfabrik GmbH

> Lechstrasse 28 D 90451 Nürnberg

· Further information obtainable

Laboratory

· 1.4 Emergency telephone

Product Safety Department AKEMI chemisch technische Spezialfabrik GmbH number:

Tel. +49(0)911-64296-59

Reachable during the following office hours: Monday – Thursday from 07:30 a.m. to 16:30 p.m.

Friday from 07:30 a.m. to 13:30 p.m.

SECTION 2: Hazards identification

· 2.1 Classification of the substance or mixture

· Classification according to Regulation (EC) No 1272/2008

Flammable liquid and vapour. Flam. Liq. 3 H226 Skin Irrit. 2 H315 Causes skin irritation. Eye Dam. 1 H318 Causes serious eye damage.

STOT SE 3 H335-H336 May cause respiratory irritation. May cause drowsiness or dizziness.

STOT RE 2 H373 May cause damage to the central nervous system and the hearing organs through

prolonged or repeated exposure. Route of exposure: Inhalation.

Asp. Tox. 1 H304 May be fatal if swallowed and enters airways. Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin · Response:

with water [or shower].

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF exposed or concerned: Get medical advice/attention.

Storage: Store in a well-ventilated place. Keep cool.

Store in a well-ventilated place. Keep container tightly closed.

Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.

· 2.2 Label elements

· Labelling according to Regulation

(EC) No 1272/2008

· Hazard pictograms

The product is classified and labelled according to the CLP regulation.

GHS02 GHS05 GHS07 GHS08

· Signal word Danger

(Contd. on page 2)

Page 2/15

· Additional information:

For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

· General information: Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical

observation for at least 48 hours after the accident.

Position and transport stably in side position.

· After inhalation: Supply fresh air. If required, provide artificial respiration. Keep patient warm.

Consult doctor if symptoms persist.

In case of unconsciousness place patient stably in side position for

transportation.

After skin contact: Immediately wash with water and soap and rinse thoroughly.

· After eye contact: Rinse opened eye for several minutes under running water. Then consult a

doctor.

· After swallowing: Do not induce vomiting; call for medical help immediately.

4.2 Most important symptoms and effects, both acute and

delayed Headache

Dizziness Dizziness

• 4.3 Indication of any immediate medical attention and special

treatment neededNo further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

· Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol

resistant foam.

(Contd. on page 4)

(Contd. of page 3)

Page 4/15

Safety data sheet

according to Regulation (EC) No 1907/2006, Article 31

Printing date 10.04.2024 Version number 12 (replaces version 11) Revision: 10.04.2024

Trade name: Hardener for 2K Epoxy Primer

· For safety reasons unsuitable

Water with full jet

extinguishing agents:
5.2 Special hazards arising from

the substance or mixture

In case of fire, the following can be released:

Carbon monoxide (CO)

Formation of toxic gases is possible during heating or in case of fire.

5.3 Advice for firefighters

· Protective equipment: Mount respiratory protective device.

Wear self-contained respiratory protective device. Do not inhale explosion gases or combustion gases.

· Additional information Cool endangered receptacles with water spray.

Dispose of fire debris and contaminated fire fighting water in accordance with

official regulations.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and

emergency procedures Mount respiratory protective device.

Wear protective equipment. Keep unprotected persons away.

Keep away from ignition sources. Ensure adequate ventilation

Use respiratory protective device against the effects of fumes/dust/aerosol.

• 6.2 Environmental precautions: Do not allow to penetrate the ground/soil.

Inform respective authorities in case of seepage into water course or sewage

system.

Do not allow to enter sewers/ surface or ground water.

· 6.3 Methods and material for

containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal

binders, sawdust). Use neutralising agent.

Dispose contaminated material as waste according to section 13.

Ensure adequate ventilation.

Do not flush with water or aqueous cleansing agents See Section 7 for information on safe handling.

• 6.4 Reference to other sections See Section 7 for information on safe handling

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

· 7.1 Precautions for safe

<u>handling</u> Keep away from heat and direct sunlight.

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

Wear suitable respiratory protective device when decanting larger quantities

without extractor facilities.

Ensure good interior ventilation, especially at floor level. (Fumes are heavier than

air).

· Information about fire - and

<u>explosion protection:</u> Fumes can combine with air to form an explosive mixture.

Do not spray onto a naked flame or any incandescent material. Use explosion-proof apparatus / fittings and spark-proof tools.

Keep ignition sources away - Do not smoke. Protect against electrostatic charges.

Keep respiratory protective device available.

(Contd. of page 4)

· 7.2 Conditions for safe storage, including any incompatibilities

· Storage:

· Requirements to be met by storerooms and receptacles:

Prevent any seepage into the ground.

· Information about storage in one

common storage facility: VCI-Konzept für die Zusammenlagerung von Chemikalien beachten.

Do not store together with reducing agents, heavy-metal compounds, acids and

alkalis.

· Further information about storage

conditions:

Store in cool, dry conditions in well sealed receptacles.

Protect from heat and direct sunlight.

Protect from frost.

Keep container tightly sealed.

· Storage class:

• 7.3 Specific end use(s) No further relevant information available.

· Additional information:

The lists valid during the making were used as basis.

8.2 Exposure controls

· Hand protection

Appropriate engineering controls No further data; see section 7.

 \cdot Individual protection measures, such as personal protective equipment

· General protective and hygienic

measures:

Do not eat, drink, smoke or sniff while working.

Use skin protection cream for skin protection.

Clean skin thoroughly immediately after handling the product.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin. Store protective clothing separately.

· Respiratory protection: Short term filter device:

Filter A-P2

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device. Preventive skin protection by use of skin-protecting agents is recommended.

After use of gloves apply skin-cleaning agents and skin cosmetics.

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves Fluorocarbon rubber (Viton)

Nitrile rubber, NBR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Safety data sheet

according to Regulation (EC) No 1907/2006, Article 31

Printing date 10.04.2024 Version number 12 (replaces version 11) Revision: 10.04.2024

Trade name: Hardener for 2K Epoxy Primer

 Penetration time of glove material Value for the permeation: Level ≤ 6

The exact break trough time has to be found out by the manufacturer of the

(Contd. of page 7)

protective gloves and has to be observed.

 For the permanent contact gloves made of the following materials are

suitable:

Fluorocarbon rubber (Viton) Vitoject (KCL, Art_No. 890)

Butyl rubber, BR

· As protection from splashes gloves made of the following materials are suitable:

Nitrile rubber, NBR

Camatril (KCL, 730, 731, 732, 733) Butoject (KCL, Art_No. 897, 898)

Butyl rubber, BR

· Not suitable are gloves made of the following materials:

Leather gloves

Eye/face protection

· Body protection:

Strong material gloves

Protective work clothing

SECTION 9: Physical and chemical properties

· 9.1 Information on basic physical and chemical properties

· General Information

· Colour: Amber coloured · Odour: Amine-like · Odour threshold: Not determined. Melting point/freezing point: Undetermined.

· Boiling point or initial boiling point and boiling range

· Flammability

· Lower and upper explosion limit

· Lower: · Upper: · Flash point:

· Auto-ignition temperature:

 Decomposition temperature: · pH

Viscosity:

· Kinematic viscosity at 40 °C

Dynamic: · Solubility

· water:

· Partition coefficient n-octanol/water (log value)

· Vapour pressure at 20 °C: Density and/or relative density

· Density at 20 °C: · Relative density · Vapour density

116-118 °C

Not applicable.

1.1 Vol % (107-98-2 1-methoxy-2-propanol) ~20 Vol % (107-98-2 1-methoxy-2-propanol)

23 °C

270 °C (107-98-2 1-methoxy-2-propanol)

Not determined. Not determined. Not applicable

<20 mm²/s Not determined.

Not miscible or difficult to mix.

Not determined.

12 hPa (107-98-2 1-methoxy-2-propanol)

0.94 g/cm3 Not determined. Not determined.

Safety data sheet

according to Regulation (EC) No 1907/2006, Article 31

Printing date 10.04.2024 Version number 12 (replaces version 11) Revision: 10.04.2024

Trade name: Hardener for 2K Epoxy Primer

(Contd. of page 8)

· 9.2 Other information

Appearance:

Fluid · Form:

· Important information on protection of health and

environment, and on safety.

Ignition temperature: Product is not selfigniting.

· Explosive properties: Product is not explosive. However, formation of explosive

air/vapour mixtures are possible.

· Solvent content:

69.1 % · Organic solvents: 28.0 % · Solids content:

Change in condition

· Evaporation rate Not determined.

· Information with regard to physical hazard classes

Void Explosives · Flammable gases Void · Aerosols Void · Oxidising gases Void Gases under pressure Void

· Flammable liquids Flammable liquid and vapour.

· Flammable solids Void · Self-reactive substances and mixtures Void · Pyrophoric liquids Void · Pyrophoric solids Void · Self-heating substances and mixtures Void

· Substances and mixtures, which emit flammable gases in Void contact with water · Oxidising liquids Void · Oxidising solids Void Void · Organic peroxides · Corrosive to metals Void Void

SECTION 10: Stability and reactivity

No further relevant information available. · 10.1 Reactivity

 10.2 Chemical stability Thermal decomposition /

Desensitised explosives

conditions to be avoided: No decomposition if used according to specifications.

10.3 Possibility of hazardous

Forms explosive gas mixture with air. reactions No further relevant information available. · 10.4 Conditions to avoid · 10.5 Incompatible materials: No further relevant information available.

· 10.6 Hazardous decomposition

products: No dangerous decomposition products known.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

· Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values relevant for classification:

ATE (Acute Toxicity Estimates)

Oral 15,000-100,000 mg/kg (rat) LD50

Safety data sheet

according to Regulation (EC) No 1907/2006, Article 31

Printing date 10.04.2024 Version number 12 (replaces version 11) Revision: 10.04.2024

Trade name: Hardener for 2K Epoxy Primer

· 12.7 Other adverse effects

· Additional ecological information:

General notes:

Do not allow product to reach ground water, water course or sewage system.

Must not reach sewage water or drainage ditch undiluted or unneutralised.

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for

water

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

Recommendation Must not be disposed together with household garbage. Do not allow product to

reach sewage system.

· European waste catalogue

08 00 00 WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS

08 01 00 wastes from MFSU and removal of paint and varnish

08 01 11* waste paint and varnish containing organic solvents or other hazardous substances

Uncleaned packaging:

· Recommendation: Empty contaminated packagings thoroughly. They may be recycled after

thorough and proper cleaning.

Disposal must be made according to official regulations.

SECTION 14: Transport information

· 14.1 UN number or ID number

· ADR, IMDG, IATA UN1263

14.2 UN proper shipping name
