

The air-cooled 250A MIG/MAG welding torch is the perfect answer to the needs of welders carrying out a wide range of work on aluminium, guaranteeing consistent, foolproof welding. The non-slip coating and ball-and-socket joint on the handle make it exceptionally comfortable to work with.

Threaded nozzle for a firm hold and better heat dispersion.

Ergonomic handle for excellent grip.

Flexible cable with ball-and-socket joint to reduce wrist torsion.

Supplied in colour box
(380 x 310 x 75 mm)

HIGH PERFORMANCE

- Reliable, robust torch for perfect welding on all aluminium materials.
- Highly resistant to mechanical shocks and high temperatures.
- Smooth, jolt-free wire feed.
- Perfect compatibility with GYS equipment.
- Universal European connector (Euro).

FEATURES

Duty cycle		230 A at 60%
Cooling		air
Compatible wire diameter		0.8-1.2 mm
Original equipment	contact tube	Ø 1.0 mm - M6
	nozzle	Ø 15 mm
Applications		Thin sheet metal, light fabrication, locksmithing
Cable	length	3 m
	section	25 mm²

MB 25

Optional consumables box
041233
